

CERAKOTE®

Training Class Outline

The two-day training course is very fluid based on your skill level, progression during your time at Cerakote, your specific industry and the projects you want to work on.

DAY 1

MORNING (8-12pm)

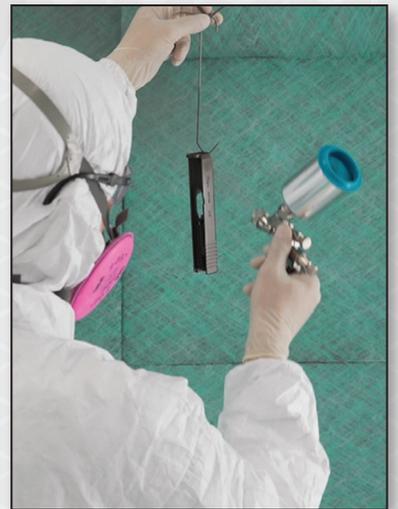

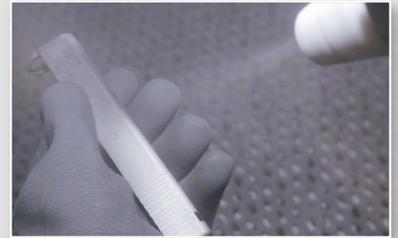

- Technical information
- Cerakote series overview
- Application guide review
- Facility and lab tour - quality control overview
 - Substrate preparation (degreasing, media blast, racking, and gas-out)
 - Mixing by weight and volume
 - Spray gun adjustments and techniques
 - Introduction to spraying Cerakote

LUNCH (12-1pm)

- Marketing Presentation: Driving demand to the Certified Network

AFTERNOON (1-4pm)

- Applying a proper base coat on different substrates and various parts
- Spraying to achieve desired mil thickness
- Learn best practices for consistency and efficiency
 - Proper curing techniques for various substrates
 - Introduction to advanced techniques (camo, distressed, etc.)
 - Preparing your firearms/items that you brought to class

DAY 2 (8-4pm)

- Finalize your projects
- Freehand techniques
 - Vinyl camo, stencils and logos
 - Cerakote High Temp, Elite and Clear Coating Applications
 - Masking, racking and advanced spraying techniques
